This line should be match in target document also same exist in target document

This is SECOND line should be match in target document also same exist in target document

This type of similar line would be exist in Source document which is only match Because when theresold is under 100%

This is five word line

This type of is seven word line

We have totally new line and only This line will show at Target document

The boxes shall be of steel plate,steel alloy or stainless steel. The covers shall have neoprene joints and shall
be screwed on the boxes.

The locked rotor current values at rated voltage and frequency, shall be less than 550% of rated current for
motors rated up to 1000 kW and less than 6000% for motors of more than 1000 kW. These are nominal values
of current, in these values are already included the tolerances.
